

Balancing machine

Made by: MPM

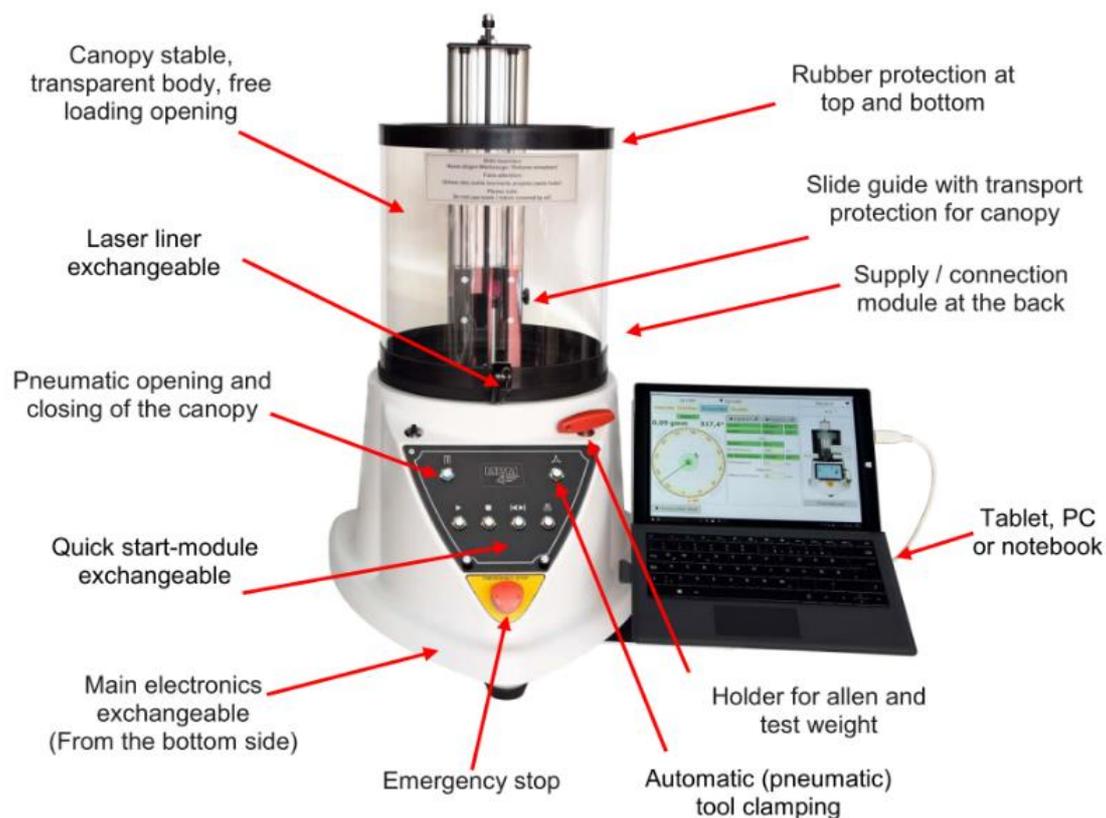

Model: 3.BMT200.TS20 / 3.BMT200.TS40 / 3.BMT200.TS100

Year: 2019

Category: Balancing machines, vertical

3.BMT200.TS20

- Highest balancing accuracy at the best price
- Specially for small tool holders up to HS32 / SK30
- Easy operation for everybody
- Smallest unbalances (<0,1 gram) detectable
- Small but excellent machine!

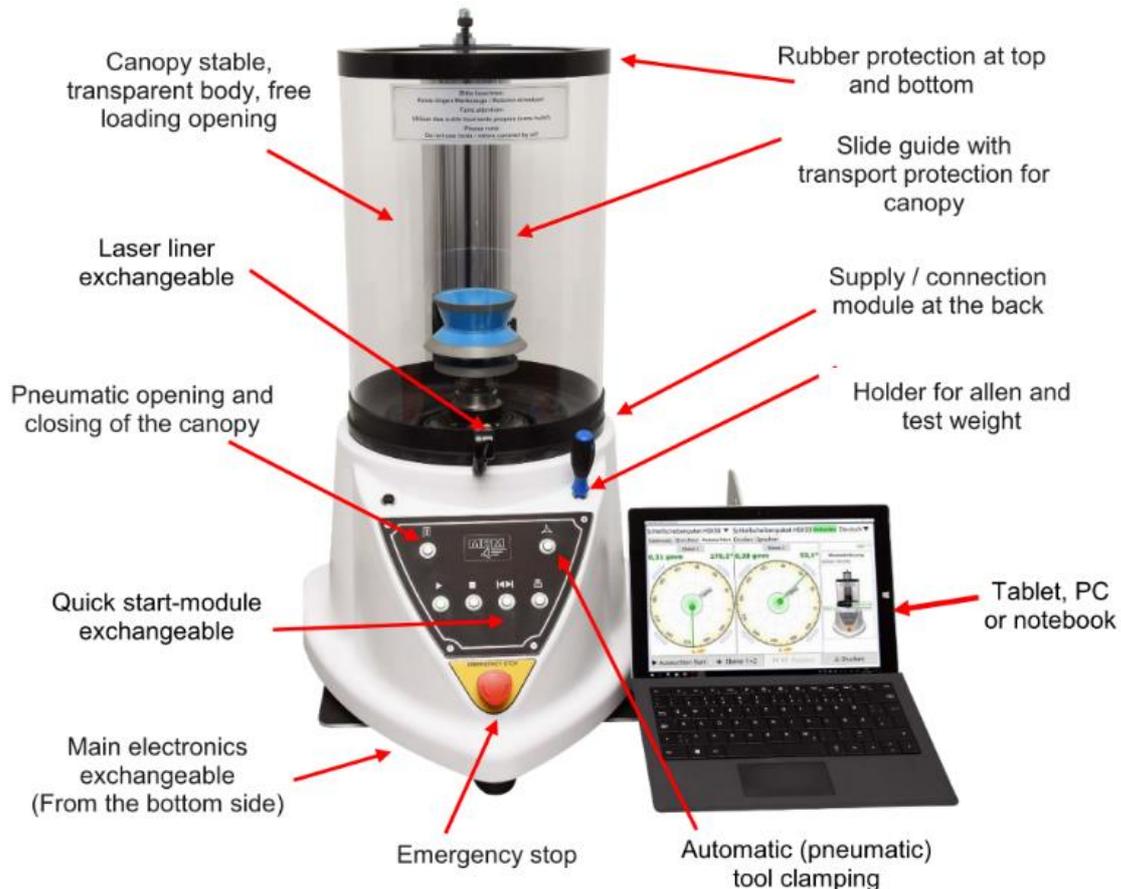

3.BMT200.TS40 / 3.BMT200.TS100

- Highest balancing accuracy at the best price
- Easy operation for everybody
- Smallest (<0.1 gram) unbalance detectable

- Display: gmm, gram, quality grade
- Workpiece weight up to approx. 750g
- Workpiece-Ø up to approx. 270mm
- Workpiece length up to approx. 280mm
- Immediately usable
- Protocol printing at the touch of a button
- Weight only approx. 38kg

3.BMT200.TS40 / 3.BMT200.TS100

- Highest precision
- Operating comfort increased >90%
- For 1-+2-plane balancing
- Balancing methods:
 - Gram, degree, spread angle, fixed position,
 - drilling radial + axial, milling
- Display: gmm, gram, quality grade

- Workpiece weight up to approx.:
 - 10kg for TS40 / 20kg for TS100
- Workpiece-Ø up to approx. 270mm
- Workpiece length up to approx. 400mm
- Immediately usable
- Protocol printing by the push of a button
- Weight only approx. 45kg

Accessories:

- Stand-alone-table unit
- for highest
- balancing precision
- $\leq 0,5\text{gmm}$
- Operation either with:
 - Tablet, Notebook, PC
 - (Windows 10)

For tool holders:

- HSK25 to HSK100
- SK/BT10 to SK/BT50
- ER16-32
