Anca FX5 Linear

Description:

The FX Linear machine range is ideal for everything from light manufacturing, to regrinding and full production. Every part on the machine - from the positioning of the grinding wheel on the C-axis centreline to reduce thermal influence, to the ANCA designed linear motors - have been designed to enhance accuracy, increase productivity and make the operator's day easier.

Small machine footprint with a large working envelope.

Provides operators with easier access to the machine during setup.

19" touch screen with Windows functionality including multi-touch and zoom.

Configured to machine so only machine options are displayed on the screen.

Specifications:

Machine Structure: Single Column
Spindle Power: 9.5 kW (12.7 HP) peak
4.2 kW (5.6 HP) S1
Wheel Packs: 2 x Ø 203 mm (8") max
Tool (shank) Diameter: Productive up to Ø 12 mm (1/2")
Tool Length (Max) - flute length may vary depending on tooling (if applicable):
200 mm (8")
Loader Type: AR300 loader (option)
Max. Tool Capacity (with loader): 340 x Ø 3 mm
200 x Ø 6 mm
80 x Ø 12 mm
Drive System: Linear Motor
Dimensions: 1930 mm (76") W
1800 mm (70") D
1810 mm (71") H
